

Job Description

About qikfox Cybersecurity Systems

Qikfox is on a mission to design a next-generation trustworthy Internet. We are a Silicon Valley HQ'ed Venture Funded product design and development company; but behind the tools, technologies, protocols and products, are passionate people, teammates and community members. Our vision is to design a next-generation (centralized and decentralized) Internet that is Safe, Secure and Reliable for consumers and businesses alike. Our flagship product "qikfox Browser " has been well received in the market and is the safest, secure and private browser today (yes it is much more than the privacy coolaid).

Position Overview:

We are seeking a passionate and talented Frontend Web Developer to join our team as a fresher. As a Frontend Web Developer, you will collaborate with our experienced team of designers and backend developers to deliver engaging and user-friendly web applications. This role is ideal for individuals who are enthusiastic about learning new technologies, and are eager to grow their career in a fast-paced environment.

Key Responsibilities:

- Collaborate with designers and backend developers to translate UI/UX designs into responsive, high-performance web pages.
- Develop new user-facing features and ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.
- Ensure cross-browser compatibility and resolve frontend-related issues.
- Stay up-to-date with emerging technologies and industry trends.

Requirements:

- Solid understanding of HTML5, CSS3, and JavaScript (ES6+).
- Familiarity with at least one modern frontend framework (e.g., React, Angular, Vue.js).
- Basic understanding of asynchronous request handling, partial page updates, and AJAX.
- Proficient understanding of code versioning tools (e.g., Git).
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork skills.

Preferred Qualifications:

- Bachelor's degree in Computer Science, Engineering, or a related field (or equivalent practical experience).
- Knowledge of CSS preprocessors (e.g., Sass, Less).
- Familiarity with RESTful APIs
- Understanding of SEO principles and ensuring that applications adhere to them.
- Portfolio or examples of previous work (e.g., GitHub repositories, personal projects) demonstrating frontend development skills.

Benefits:

- Competitive salary and benefits package.
- Opportunities for professional growth and career development.
- Flexible work environment
- Collaborative and inclusive team culture.

Application Process:

If you are excited about this opportunity and meet the qualifications outlined above, please submit your resume. We look forward to reviewing your application.

qikfox is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
